**What is Parents as Teachers?**

Parents as Teachers is an evidence-based, parenting support program for families who are expecting, or have children up to the age of 3. Through home-based services, families are connected with certified Parent Educators to encourage caregiver engagement through the early years of development. Our program believes that parents are their child's first and most important teacher and PAT provides comprehensive support to ensure children are able to thrive, and families have the best opportunity for success.
